

Introduction: what on earth am I doing here?

1. Catherine Paradeise, a professor at Université Paris Est-Marne la Vallée, provided invaluable editing assistance. Michel Coster, a professor at EMLYON, reread the manuscript. We extend our thanks to both of them. Our thinking was also made the richer by discussions at the EMLYON “organizations, careers and new elites” research center.

5. What they told us is marked indelibly in our memories. We hope that we have not betrayed their trust.

2. In some countries, such events have become matters of public opinion and government issues by the late 2000s. To give an example from among French companies such as France Telecom, a telecommunications giant, and Renault, an auto manufacturer, serial suicides of employees and managers have been registered – more than forty between 2008 and 2010, on and off site.

Conclusion: the future beckons

1. In recent years, in countries such as France, trade union membership increased quite noticeably among middle managers of private-sector companies. Nevertheless, it remains very low on the whole (between 7.5 percent and 8 percent), compared with other European countries.
