

INDEX

- actin 75, 76, 87, 90, 96, 150, 220, 221, 230, 233
adipogenic differentiation 88
adult stem cells 48, 57, 58
affymetrix array 88–90, 93, 96, 98–101
agrin 113, 273, 278, 313, 315, 317, 318, 329
amitosis 2, 4, 6, 7
amputation 163, 171, 182, 185, 187, 191,
192, 194
anaesthetic 308
angiogenesis 72, 75, 272, 278–280, 283,
285–287, 293
animal models 69, 72, 73, 89, 92, 103, 126, 163,
164, 171, 173, 174, 199, 206, 209, 213, 236,
237, 290, 343, 349, 350
autoradiography 7, 9, 324
- basal lamina 8, 21, 23, 28, 29, 45, 47–49, 51, 65,
70, 78, 86, 109, 112, 123, 145, 172, 175, 183,
200, 202, 205, 208, 211, 212, 217, 222–224,
226, 231, 233, 236, 269, 304, 306, 308–310,
312, 313, 315–318, 320, 329, 368
basement membrane 8, 46, 114, 190, 269–271,
273–275, 277, 278, 281–283, 285–287,
289–292, 294
Becker muscular dystrophy 200, 202, 236, 349
beta2-agonists 348, 350
blood vessels 20, 23, 36, 112, 183, 204, 218, 222,
269, 270, 275, 285–287
bone morphogenetic protein 2 (BMP2) 66, 123,
124, 290
- calcineurin 147, 151, 152, 326–328, 338, 347
calpains 153, 154, 273, 281, 289, 338, 348, 350
Carrel, A. 3–7
cDNA array 89, 90, 98
cell culture studies 127, 129
cell cycle re-entry 186–188, 194
cell differentiation 5, 27, 28, 97, 99, 117, 213
cell extracts 5
cell therapy 65, 70–72, 79, 213
cellular implantation models 173
chelating agents 4
chemokines 111, 258, 278
- chick embryonic fibroblast monolayers 5
chromatin immunoprecipitation (ChIP) 87, 98,
99, 100, 102, 103
c-Met 21, 22, 32, 36, 38, 121–123
cold injury 171
collagens 96, 112, 166, 190, 208, 222, 232, 233,
270–276, 278, 279, 281–283, 285–288, 291,
292, 294
contusion 170, 217, 218, 222
cross-transplantation 167, 323
crushing 170, 309, 317
cytokines 21, 70, 107, 111, 146, 208, 244, 246,
248–250, 252, 253, 256, 258, 272, 278–280,
283, 285, 294, 339, 346
cytological analytic techniques 2
cytoplasmic buds 1
- database 101
dedifferentiation 3, 163, 164, 175, 182, 183,
185–189, 191–195
delayed onset muscle soreness (DOMS) 218–221
denervation models 171
dermomyotome 20–23, 25, 26, 30, 32, 33, 37, 38,
